Description of Composting Facility	
Upgraded in 2007 to comply with ABPRs the facility commenced validation process on 3/03/08 and is currently still in the validation process with DAFF. The facility is an in-vessel facility comprising of waste reception building, 5 no. concrete tunnels, air static pile bays and a compost quarantine shed. Each tunnel has a capacity of 250m ³ of material and the ASPs have a capacity for 23 separate batches. The facility accepts brown bin waste collected by Galway City Council and also commercial food waste collected from hotels and restaurants etc by private waste collectors. The facility is not currently open to the public and does not provide a shredding service on site.
