Web address	www.greenking.ie
Which Type of Facility?	
Garden & Landscape Materials	Yes
In-vessel Bio waste Facility	No
Mixed Waste/MBT Facility	No
Description of Composting Facility	
<p>GreenKing Composting is a green waste recycling facility located in Co. Wicklow just outside of Wicklow Town on the N11. GreenKing Composting was established in 2006 and began operations in June of that year. We are a purpose built private facility on a circa. 6 acre site with 4 acres of hard standing for composting purposes. We offer a green waste drop off facility where garden mulch may also be purchased. At GreenKing we operate an open windrow composting system. The green waste accepted at our facility comprises of wood wastes generated by our own King Tree Services tree surgery business, garden and park waste produced during improvement and maintenance works by landscape gardeners and local authorities, grass and shrub trimmings produced by individual householders and stumps and tree debris arising from site clearance contractors. Our product has a number of uses. It may be used for turf laying, as a mulch, as a soil improver and is useful for soil blending/mixing to create a multi purpose soil product.</p>
