

NI Biogas Action Plan

Agronomy & Feedstocks

Digester Design & Operation

Sensors & Control

Digestate Nutrients Fertilisers

Gas Cleanup & Upgrading

Electricity Biomethane Heat Use

“Developing Opportunities in Bio-Energy”

- **Aims:**
 - gather a critical mass of companies and research interests relevant to the biogas supply chain in Northern Ireland.
 - set out a range of actions building our infrastructure and innovation capacity in this area up to 2020.
 - assist stakeholders in targeting partners, investment and future funding from Europe and other sources.
- **Timeline:** deliver draft Action Plan by December 2013
