

## **Meet the Master Composter – Ennis Showgrounds**

Clare County Council's Environment Section is running "Meet the Master Composter" workshop at the Clare Garden Festival on Sunday, 28 April 2013.

The Environmental Awareness Office along with the Master Composters will run a series of workshops covering the many systems of composting, and troubleshooting clinics for people who want to have more effective composting systems.

Lots of interesting information and ideas on how to "Stop Food Waste" - saving you money and being kinder to our environment. Fun activities/colouring sheets will be available for the children.

So check us out at the Clare Garden Festival 11am-5pm on Sunday, 28th.
